

Imagine That There Was A Faster, Better Way To Unearth Your Best Work.

Do you ever find yourself engaging in habits or patterns that keep you from getting the results you want – despite your best efforts to overcome them?

You've gone to classes to learn new methods, read books to gain skills, set goals and tried new approaches, but still know you can do much better...

Extraordinary accomplishments and contributions are not the product of the latest innovative approach, tool, or method. They come from the inside out. To effectively lead others, we must first lead ourselves.

Often we are so accustomed to running from project to project and meeting to meeting, that we aren't even aware of the dynamics at play under the surface. This frenetic approach leads to a pattern of similar results, similar experiences, and inevitably similar frustrations, and often the feeling that there has to be more to it than this.

There is.

The truth is, you already possess within you the most significant core essentials you need in order to be successful. The question is, are you using them to the best of your ability?

Leader, know thyself.

If you are interested in reestablishing contact with and utilizing this infinite source of power in your leadership, consider allowing yourself to participate in a retreat... a getaway from the office with a small group of fellow leaders, who like yourself are ready to look for some real answers.

COST: \$2000 per participant , \$1,500 for non-profit

What This Workshop IS...

- ✓ An intensive, participant-centered experience that allows individuals the opportunity to examine and address their own leadership challenges in a small group setting with other like-minded leaders
- ✓ The beginning of a discovery process that allows you to unearth your true potential as a leader so that you can do the same for others

What This Workshop is NOT...

- ✗ A lecture/presentation to a large group of participants who sit passively watching a PowerPoint presentation and leave with a handout or binder of materials
- ✗ A one-size-fits-all approach to leadership development

What Participants Said After Attending...

"... a workshop that brought immediate value to my role as a leader and as an employee. I would encourage participation to those that are not reticent about achieving excellence."

- Jessica Pacheco
VP of Government Affairs
Phoenix Chamber of Commerce

"This a great workshop for any leader interested in effectiveness and growth, but the best news is that it stays in the tool kit in real life and back at the office. It can get you comfortably to some uncomfortable zones where the opportunity for some real learning can take root. I highly recommend."

- Paul Reynolds
Director, Corporate Communications
Fortune 500 Company

"What a workshop! Great for the emerging leader as well as the established leader. It goes to the core of leadership to expose its true essence and origin. This is a very rare experience that no serious leader should miss."

- Rick Wright
President, Wright Consultancy
International Consulting Company

"As the Chief Academic Officer for Scottsdale Healthcare I was not quite sure what to expect from Diane Bolden's Transformations in Leadership program. What I discovered was that "transformation" can truly occur in only 2 days! Diane helped me overcome my own "cognitive blindness" (not knowing what I don't know) by freeing me from the self imposed barriers I had so cleverly and unknowingly constructed for my self! I highly recommend this workshop as an absolutely "must do" for all leaders! You will become personally engaged in a transformational process focused on who you are as a leader--then who you can become!"

- Michael R. Foley, M.D.
Chief Academic Officer
Scottsdale Healthcare

"I have been through many workshops and have read many books which talk to 'successful leadership' and how to achieve it. Rarely, have I returned to the workplace effectively incorporating these shared elements of success. Diane's unconventional approach in this workshop was a refreshing change to this which included practical tools to help ensure what we learned can be utilized with success."

- Maria Buechler
Information Services Manager
Fortune 500 Company

"The workshop is nothing shy of excellent - an incredible opportunity to unravel yourself and resolve personal and professional issues that you might not even know you have, and a launching pad for the rest of your life."

- Doug King
President, Green King, LLC

"The workshop gave me the clarity and leadership direction to focus on what I needed to work on. I was able to find solutions that I could implement immediately."

- Pam Slont
Municipal Aesthetics Program Manager
Salt River Project

"This workshop challenged me to better understand how my fears and unexamined assumptions truly lessen my effectiveness. It also allowed me to take an outside look in to what really is hindering me from achieving my goals and provided me with some tools to overcome these challenges. The workshop experience gave me the opportunity to consider potential beyond day-to-day management and focus on true leadership."

- Brian Moore
Information Services Director
Fortune 500 Company
